

Fall COVID-19 Policies for Classes at Pure Vibe Dance Center:

1. Dancers must come with clean hands - please make sure hands are washed at home, BEFORE entering Pure Vibe Dance Center. Dancers are welcome to wash their hands a 2nd time upon entering or use our hand sanitizer.
2. Dancers must wear masks into the studio, to the bathrooms and out of the studio. The only time dancers can have masks off is when they are in their spot during class. Mask wearing during class is a parent choice, not mandatory and dancers must wear the mask to their spot in the studio.
3. Parents must take temperatures before sending dancers to Pure Vibe Dance Center. We do have infrared thermometers on the premise and will use randomly as needed. If dancer has an elevated temperature, she/he will be sent home and proof of wellness will need to be supplied to Pure Vibe Dance Center prior to their return. If dancer has COVID-19, parent must report this to Pure Vibe Dance Center immediately for contact tracing and temporary closure of the studio to thoroughly disinfect.
4. COVID-19 release forms must be signed and submitted prior to attending classes at Pure Vibe Dance Center. If you registered online, the release is part of your online registration. However, even without a signed release you sending your dancer for class is also your consent. Zoom classes are available for parents uncomfortable with in person class.
5. Class size will be limited to 11 dancers in our 2 large studios, and 8 dancers in our small studio. Dance Company Rehearsals could be up to 16 in a large studio. Large Studios are 2000 square ft. apiece.
5. Locker Rooms are closed. Please send your dancer in with the minimum they need to attend class, as their belongings will be kept with them in the studio.
6. Water bottles are a must and will be kept with the dancer in the studio. Our drinking fountains will be closed, but they may refill their bottle with the bottle refiller we have on the fountain since it is touchless.
7. Dancers will be asked to use hand sanitizer upon entering the studio for class. If they have 2 classes in a row, they will keep their spot for both classes and be asked to stay in the studio, other than a bathroom break if needed, between classes.
8. All dance spots are marked with spike tape and each spot is approximately 8ftx8ft. Barres have also been marked for every other space for the ballet classes, including portable barres for proper social distancing. Some classes will do "across the floor" and spots to line up for this are marked by Xs for proper dancer placement.
9. Parents will not be permitted to in the studio other than for children 7yrs. and under, or for business at the front desk. This is in order to keep our personal spacing in line with Phase 4 and exposure to our staff and dancers as low as possible. Please keep all studio entry at a minimum for the safety of all concerned and parents must wear masks in the studio, no exceptions.
10. Teachers will wear masks before and after class, but it's optional for our teachers during class. They have designated space and will not move out of the designated space during class. They will be at least 8-10 feet from all dancers at all times during classes and will only give verbal corrections. The reason for optional masks for teacher is to allow dancers to hear teachers clearly over the music. If you are uncomfortable with this, your dancer is welcome to join our classes via Zoom.
11. Studios will be disinfected between classes. Dancers should be dropped off within 5 minutes their class time in order to eliminate congregation in the hallways. All classes are scheduled with time in

between to allow previous dancers to exit the studio and time to disinfect, so **please have your dancer wait to enter the dance center until 5 minutes before class.**

12. We have infrared thermometers in the studio and will take temperatures when needed. If dancers have an elevated temperature, they will be sent home immediately. Please be vigilant about not bringing a dancer with COVID symptoms or an elevated temperature to Pure Vibe Dance Center for the safety of others.
